

Header Data

Description

The Header_Info structure contains the following fields:

- CO_AREA - Controlling area
- FISC_YEAR - Fiscal year
- PERIOD_FROM - First period for which values are transferred
- PERIOD_TO - Final period for which values are transferred
- VERSION - Version in which the plan data is stored
- DOC_HDR_TX - Document header text, only saves with integrated planning.
- PLAN_CURRTYPE - Are the prices to be planned in the CO area-, object-, or transaction currency?

Value range

- PERIOD_FROM, PERIOD_TO - The following must apply:
 - $1 \leq \text{PERIOD_FROM} \leq \text{PERIOD_TO} \leq \text{Number of true posting periods}$
- PLAN_CURRTYPE - The following values are allowed:
 - C - Planning in controlling area currency
 - O - Planning in object currency
 - T - Planning in transaction currency
