

Return Parameter

Description

Return code with error messages

Value range

If errors occur, the following messages will be output, if necessary:

Type ID Number Message

- E CNIF_STATUS 005 Error in processing. Function was not executed.
- E CNIF_STATUS 006 Error in processing. Function was partially executed.

In this case, you can find more detailed information about the cause of the errors in the table E_MESSAGE_TABLE.
