

## FU BAPI\_COSTACTPLN\_POSTKEYFIGURE

---

### Short Text

Stat. Key Figure Planning: Postings

### Functionality

This method checks that statistical key figures can be planned correctly. It then updates them.

### Example

On cost center 4210 you want to plan statistical key figures KF01 and KF02 with the corresponding values 13 and 204, and distribution keys 1 and 2.

You can fill the table as follows:

INDEXSTRUCTURE:

OBJECT_INDEX	VALUE_INDEX
1	1
1	2

COBJECT:

OBJECT_INDEX	COSTCENTER	ACTTYPE	CO_BUSPROC	ORDERID	WBS_ELEMENT
1	4210				

TOTVALUE:

VALUE_INDEX	STATKEYFIG	STAT_QTY	DIST_KEY_QUAN	STAT_QTY_MAX	DIST_KEY_QU..
1	KF01	13	1		1
2	KF02	204	2		2

The document header is filled as required.

Important: If you are planning for the complete fiscal year, you must always specify the distribution key for quantity and maximum quantity for statistical key figures of category "Total value". This applies even if you have not entered a value for the maximum quantity.

### Parameters

HEADERINFO  
 DELTA  
 INDEXSTRUCTURE  
 COBJECT  
 PERVALUE

TOTVALUE  
RETURN

## Exceptions
