FU BAPI_CTR_GETACTIVITYQUANTITIES

_____

Short Text

Rad plan activity/capacity/scheduled activity for cost center/acty type

Functionality

This method returns the planned activities for the cost center / activity type combinations.

The system returns the following fields for the periods selected:

- **ACT_QUANTITY** Planned activity

- **ACT_CAPACITY** Capacity

- **ACT_SCEDULED_QTY** Scheduled activity

- **ACT_UNIT** Activity unit

- **ACT_UNIT_ISO** Activity unit (ISO)

- **OUTPUT_UNIT** Output unit

- **OUTPUT_UNIT_ISO** Output unit (ISO)

Use

You must enter the following parameters:

- COAREA   Controlling area

- FISCYEAR   Fiscal year

- VERSION   Version

- PERIODFROM From period (To period is optional)

You can restrict the number of cost center/activity type combinations through the optional entry of a cost center, a cost center interval or a cost center group or an activity type or an activity type interval.
